Appendix A (Event Acronym Definitions)

International Events

OLY = Olympic Games
YLY = Youth Olympic Games
SWC = Senior World Championships
JWC = Junior World Championships
YWC = Youth World Championships
UWC = University World Championships
MWC = Master World Championships/Games
SPA = Senior Pan American Championships/Games
JPA = Junior Pan American Championships
YPW = Youth Pan American Championships
MPA = Master Pan American Championships
IGP = International Grand Prix
YII = Youth International Invitational
MWP = Master World Cup

National Events

SNC = Senior National Championships
JNC = Junior National Championships
YNC = Youth National Championships
UNC = University/Under 25 National Championships
MNC = Master National Championships
SAO = Senior American Open
MAO = Master American Open
AO1 = American Open 1
AO2 = American Open 2
AO3 = American Open 3

Local Events

TSC = Texas State Championships

Appendix B – Claim A Record

To set a record, a lifter must exceed any current record at any event listed above in Appendix A. Additional International Events can be added if they are listed and results posted on the IWF website.

To claim a record, send an email to robertsirakis@hotmail.com within 2 weeks of setting the record with the following information:

1. Your Name
2. Your Results
3. Your Category
 - a. Include Age Group If Required
4. Event
5. Your USAW#
 - a. Your USAW# Must Indicate An Address In Texas

****The only exception to sending an email is if the record was set at the Texas State Weightlifting Championships.****

Please note that if you do not submit your record within the required 2-week period, and another lifter sets the record at another event, the record will belong to the person that just set the record.

Example: Lifter A sets a record for the Open 55kg in the snatch with a lift of 89 at the AO1. Lifter A doesn't submit the record in time and lifter B sees the record is still 88. Lifter B lifts in the National Championships a few months later in the Open 55kg category and makes 89 in the snatch. Lifter B would then be credited with the record even though Lifter A set it first.

The reason for this is that there is now way for us to know if a lifter is from Texas based on the results provided at the end of events. Additionally, there could be a perceived competitive advantage if Lifter A breaks the record and knows that Lifter B could break the new record. So, lifter A withholds the new record so that Lifter B only breaks the recorded record, but only ties the number that lifter A made. If lifter B knew there was a new record, Lifter B may have attempted a heavier weight. Therefore, the responsibility is on the athlete or coach to notify us of any new records.
